

(a) ABox revocation

Metric

Precision

Recall

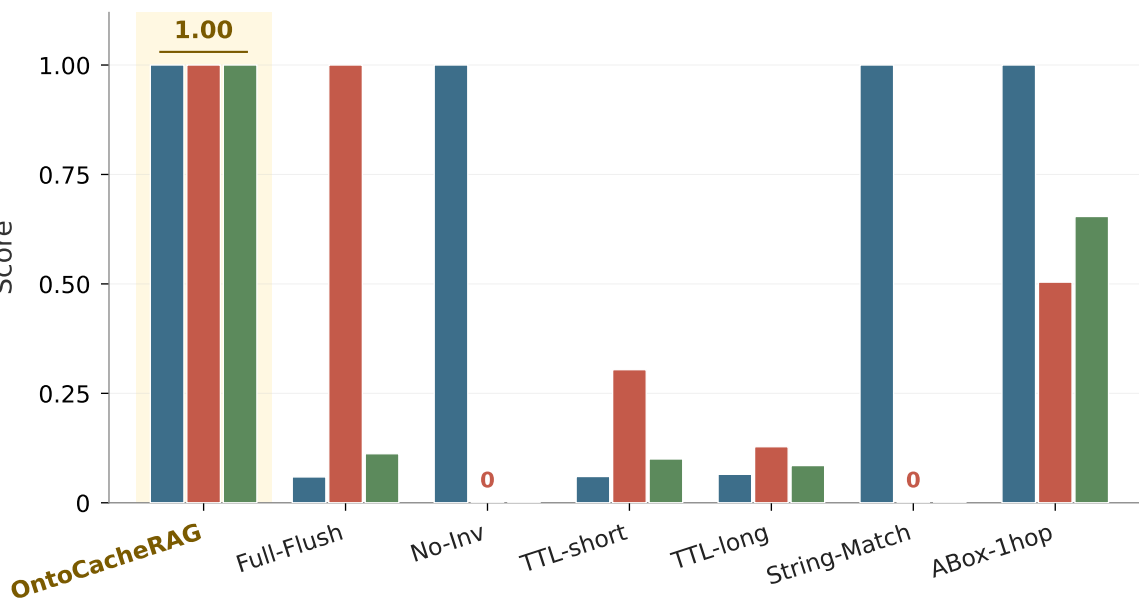

F1

Panel (a) insight

OntoCacheRAG is the only system achieving perfect F1 = 1.00.

String-Match catches only 55% of stale entries (recall = 0.55).

(b) TBox restructuring

Panel (b) insight

String-Match is architecturally blind to class restructuring (recall = 0).

ABox-1hop captures only 50% — single-hop misses deeper hops.
